Our strong advantages that other factories cannot compare with:

1. All the materials we use are all raw materials with high quality, which are all imported from British, Germany and Austria. All can pass through European SVHC as well as the United States' CA65 chemical requirements, and can reach non-toxic, 7 p environmental protection requirements.

If the material of EPS foam is used material or renovation material, then the strength of EPS to absorb impact will be greatly weakened, thus it might not hold an effect to protect head.

2. We have 80 sets of high-precision full-automatic injection molding machines and 2 sets of Coal chain steam boiler. The molds we can provide have double-cavity molds and multi-cavity molds which can well satisfy the daily production capacity and delivery time.

3. We imported full-automatic screen printing machines from Germany, featured with six times efficient productivity which reduces cost effectively, simple transfer process, quick operation, running stability and high precision. Moreover, we equipped with HP pre-press equipment as well as Mitsubishi 4-color offset presses, silkscreen presses, stamping machines, UV soft printing machines, offset and screen printing, dye-sublimation, auto decorative decal, water and heat-transfer printing etc., We do printing, UV coating and die-cutting all in assembling lines.

4. We've developed our own inspection criteria incorporating all the relevant global standards. We work intensively with external production testing labs like CE,EN1078,SGS,not only pre-production testing.

INNER HOUSE TESTING

“Testing Procedures”

The Impact force detected

Field of Vision Testing

Every manufacturing steps at AURORA follows adhere to strict quality parameters and focus on quality throughout the each stagesinvolved. All raw material and semi finished goods at AURORA pass strict quality control. The finished product, helmets at Aurora is then tested and qualified to export to the world.

CERTIFICATE / AUTHENTICATION

5.Aurora Sports is delighted to accommodate our customer's individual requirements and needs, we can provide variety of shipping options by Sea ,or by Air to any international port or door to door service, We can also deliver by using clients' shipping forwarder FOB Shenzhen orHong Kong.

Payment:

we usually accept T/T,L/C, other items can be negotiate .

Packing:

1pcs/color box, strong carton out packing.

Delivery Time:

Stock in hand: 7 days after receive the payment.

Customer design: 30~35 days after receive 30% deposit.

For urgent order, Could be faster, please send email to negotiate

Sample Time:

We accept free samples , if the sample quantity is less than 5 piece

3 days for approval sample

Please send email for sample requirement.

Bulk Production:

30 days (monthly capacity: 2,0000pcs)

Why choose us?

1. We produce material by ourselves and have our own factory, which makes more competitive price and faster delivery.
2. We provide OEM service and submit various styles, latest designs every month to our clients
3. We work with big customers in Europe 60%, USA/25%, Russia/5%, South Korea/2%, Japan2%.
4. We have standard testing report from SGS or TUV for different market, please send us email for the copy of testing reports.
5. We have great experience on provide high quality service to retailers

How to make an order?

1. sample approval
2. Client make 30% deposit or open LC after receiving our PI

3. Client approve our pp sample, and get the testing report if any necessary
4. arrange shipment
5. supplier arrange necessary documents and send copy of these documents
6. Client effect balance payment
7. supplier send original documents or telex release the goods
8. quality warranty for 60days after shipment.

Thank you for you valuable time. Sincerely hope to cooperation with you .
