7. certification: CE EN397 Certified for shock protection.

Characteristics of the product

- 1 thicken shell PP, protection would increase considerably.
2. light weight, impact resistance, provide reliable protection.
3. with adjuster headlock, PA strap, washable pads.
- 4 pad equipped tail hot pressing technology.
5. we are a direct headphone manufacturer, with independent R & D functions.[Provider of China headset](#) provide hundreds of helmet type, such as a helmet, climbing helmet.

Components of a helmet enduro lamp

Lining:

Most helmet linings are made of expanded polystyrene. At impact, the liner dissipate the force of the impact to protect your head. Make sure that the liner is your head back and has not damaged or dented.

Shell:

Bicycle Helmets are coated with a plastic shell to keep the whole helmet in an accident, provide

resistance to perforation and allow the helmet to slide on the impact (to protect your head and neck). Make sure that the hull is intact and in good condition.

Ventilation:

Helmet vents improve the flow of the wind over your head, keeping you more fresh and more comfortable while you pedal. In general, the ventilation openings you have, you'll be cooler.

Straps:

Find a helmet strap system that is comfortable and easy to get in and out of. Also make sure that it matches your style of driving - Beefy for the field trails and mountain rough, lighter and fresher for the race on road. Before decide you on one, try a couple of different systems.

Port of hair:

This headphones come with a strap design which hosts the ponytails.

Here's our certificate: we have got ISO9001, letters, documents, and we have our own laboratory to make sure that all our product can meet testing requirements:
