## Our test lab:

For the production of high-quality helmets, to learn not only from the theory of design, but also to make progress from the result of testing! Therefore our factory equipped with a professional testing laboratory, that each design is a practical and accessible! Our test standard is more stringent than the requirements of the relevant certificate, therefore we can promise a model that we can certainly test the corresponding third party!

**Factory photos:**

Production procedure of the helmet is as below:

Silk screen → PC blister tooling → Production of PC blister → Crop dug a hole → EPS raw material under different density → EPS-mold machining → the helmet in the mold workshop → in the moulding machines → Mold Machining → mold produce process → semi-finished product in the mold helmet → IQC inspection → helmet, grinding → The internal padding of the production → plastic injection workshop → the Assembly line → in describing → obal → sklad → installed counters.
