The field of application of protective helmets:

The production of electrical energy, Žehlička Věž, BTS, Těžba uhlí, Work at height, Petrochemický refining, offshore oil and gas, the plumber, lift maintenance, Mobilní zařízení Údržba, Údržba letadla, Pulp and paper, Civil infrastructure, Moře Zachránit, Roof cleaning, Turistika...

Area of application safety helmets

Sea rescue

Roof Cleaning

Hiking

Package: helmets

Items per carton: 12 PCs/carton

Packaging dimensions: 73 X 58 X 35 cm

Gross weight: 6.50 kg

Pulp&paper

Type of package: 1pc/PP bag wth color palette, 12 piece Brown CARDBOARD

Civil infrastructure

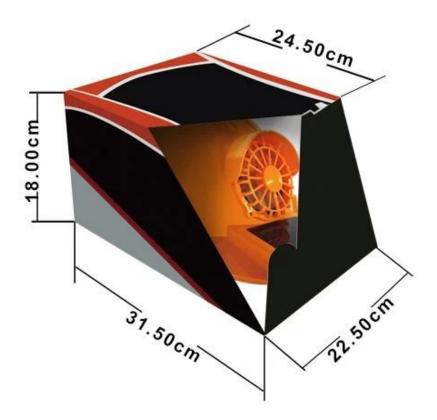

Packaging

Items per Carton: 12 Pieces/Carton Package Measurements: 73X58X35 cm

Gross Weight: 6.50 kg

Package Type: 1PCS/PP bag wth color box, 12 PCS PER BROWN CARTON

Our test lab:

For the production of high-quality helmets, to learn not only from the theory of design, but also to make progress from the result of testing! Therefore our factory equipped with a professional testing laboratory, that each design is a practical and accessible! Our test standard is more stringent than the requirements of the relevant certificate, therefore we can promise a model that we can certainly test the corresponding third party!

Our In-house Testing Lab

Factory photos:

Production procedure of the helmet is as below:

Silk screen → PC blister tooling → Production of PC blister → Crop dug a hole → EPS raw material under different density \rightarrow EPS-mold machining \rightarrow the helmet in the mold workshop \rightarrow in the moulding machines \rightarrow Mold Machining → mold produce process → semi-finished product in the mold helmet → IQC inspection → helmet, grinding → The internal padding of the production → plastic injection workshop → the Assembly line \rightarrow in describing \rightarrow obal \rightarrow sklad \rightarrow installed counters.
