

ANSI Z89.1 certified hard hat, hiGh quality PPE safest helmetet for construction AU-M12

SAFETY HARD HAT

High Impact
ABS

Size Adjustment
55-62 cm

Ventilation
Breathable

Model NO.	AU-M12 Security Helm
External material	ABS/PP sleeve
Inner material	EPS coating, 4/6 points Webbing Suspension system
Headband	SPORT Polyethylene
Lamp Carry System	External nylon 6.6 Lamp Clips
Ear Muffs	30-35dB NRR Hear Protection
Face mask	PC plastic Vistier/ PC plastic Goggle/ iron Mesh fabric
Color	Red, Yellow, blue, green, orange, black, white, pink
Size/head Scope	55-62cm
Weight	550 g (Ear Muffs and eye protection Are not included)
Ventilation slots	8 air ventilation with Aluminum/ nylon Mesh fabric
technology	injection
Certification	ANSI Z89.1
sample Time	3-7 Work Day
Minimum Order Quantity	200 pcs

Packaging detail	1.PP Bag, SPORT Bag, bladder Map, Color Crate and Custom design is welcomed.
	2. Cardboard Packaging outside

:

1) Safety helmet with LED light : Headlight LED light.

2) Safety helmet with hearing protection and mesh face shields : Earmuffs good sound insulation, Face protection Iron mesh.

3) Safety helmet with plastic visor The set is compatible with ours special visor and earmuffs : Visor Plastic with an eye Protection, Earmuffs .

Iron mesh faceshield

Knowing the head circumference of a safety helmet:

European head shape:

An oval helmet is designed to fit a rider's head and has a considerable fit for Europeans.

Generic head shape:c

A general headform helmet is designed to fit a rider's head and has a front-to-back dimension that is slightly longer than the side dimension.

Asian head shape:

A round helmet is designed to fit a rider's head and is a comfortable size fit for Asians.

Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Our test laboratory:

To make high-quality helmets, we not only learn from design theory, but also make progress from test results! That's why our factory is equipped with a professional testing laboratory to ensure every design is practical and accessible! Our testing standard is stricter than the corresponding certificate requirements, so we can promise that the model we provide can definitely pass the corresponding third-party test!

Our In-house Testing Lab

Certification:

Below is our certificate: We have ISO9001, patent letters, CE documents and we have our own laboratory to ensure that each of our products can meet the testing requirements

CERTIFICATE

Our factory's profile:

Aurora Sports is a helmet manufacturer with more than 15 years of experience in producing all kinds of helmets. Internal design and research and development teams with many years of experience enable Aurora Sports to respond quickly to demanding requirements and create complete programs and collections from scratch with strict quality standards.

Logo style: Dome, Metal, UV-Dart sticker, Water decal.

The helmet manufacturing procedure is as follows:

screen printing → PC blister tools → Production of PC blisters → Trim excavated hole → EPS raw material with different density → EPS in-mold tool → Helmet-in-mold workshop → In-mold machines → In-mold tools → In-mold manufacturing process → Semi-finished in-mold helmet → IQC inspection → Helmet grinds → Production of the interior upholstery → Plastic injection molding workshop → assembly line → Interior labeling → Packaging → camp → installed meters.
