

WHY US

Logo style: Dome, Metal, UV-Dart sticker, Water decal..

QUALITY

With strict quality management system and first-class products

OEM&ODM

We can provide OEM and ODM service for customers

R&D TEAM

With professional and strong technical development team

PRICE

We have our own production line, to reduce the price to a minimum

PATENT

We constantly introduce patented technology products

SERVICE

Perfect after-sales service, so customer satisfaction

FAQ:

1- How long do you need to send us samples based on this drawing?

we need 20 to 30 days to send you the completely prototype (including the black color painting) which is made by CNC and the cost of it will be 1200usd.

the prototype will be very close to the picture you sent to me

2- How long to construct a mold after samples approval?

After confirm the prototype mold we need three months to construct the mold, including the time for testing, we have professional testing lab, please check the picture in my attachment, thanks.

3- Which material can you inject the shell (our specification is polycarbonate).
We will inject the PC1414/EXL1414 to make the polycarbonate shell.

4- Can you provide the inside paddings? If so, what alternative do you have?
Sure we can, I Have rechecked your picture, it looks like your inside paddings is made by EVA which is with PVC material inside, am i right? You can also check the attachment to ensure if it is what you want to make.
we can also make the padding by PU FOAM or VA FOAM.

5- Are you able to perform the standard tests (attached)? Can you provide report for each one?
we have independent test lab in our factory, during the process making the prototype, we will test each part of the helmet like face mask etc in our own Lab in advance, as we are professional in making the american football helmet, sure we can pass the NOCSAE standard.
if you want to sell the helmet in USA, we have to pass our factory Audit.

6- How can we deal with mold investment?
if you could invest the fee of opening the mold, then you can be the exclusive user of the mold and we will only make the helmet for you. actually many customers pay all the fee for opening the mold as they don't want to be in price war.
the price for opening the mold will be 40000usd including shell, facemask, etc all the thing.

7- Provide quotation for each helmet
i am sorry as we don't know your detail requirements, such as helmet structure, surface structure, internal structure, features, etc.. , i cannot give you the precise price at this moment, please understand. thank you

For EPS, please forget it, as i am just checking another email at that time.
What is more, the line of your is made by [EPP](#) right?

The banner features a photograph of a man and a woman on the left. To their right are three smaller images: a modern office interior, a factory floor with industrial equipment, and two certification documents from TUV and SGS. Below these images is the text: **AURORA - Your China Helmet Expert, Alibaba highly recommended supplier!** followed by a graphic of a helmet.
