Figure 1 **headform:**

Figure 1 shows the three types of headforms used in helmet testing: European, Generic, and Asian.

Helmet Shape 101

European Headform
An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform
A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform
A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Figure 1: Headform types:

Figure 1 shows the three types of headforms used in helmet testing: European, Generic, and Asian. The European headform is oval-shaped, the Generic headform is a standard shape, and the Asian headform is round. The text explains that the European headform is designed for a rider's head with a dimension which is considerably fit for Europeans, the Generic headform is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement, and the Asian headform is designed for a rider's head with a dimension which is considerably fit for Asians.
