# Helmet Shape 101

**European Headform**

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

**Generic headform**

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

**Asian headform**

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

FAQ

Q: What is the difference between European and Asian headforms?  
A: European headforms have a narrower front-to-back dimension and a wider side-to-side dimension compared to Asian headforms, who have a wider front-to-back dimension and a narrower side-to-side dimension.
