Helmet Shape 101

Introduction

Understanding helmet shapes is crucial for ensuring a proper fit and safety for riders.

Key Concepts

A helmet's shape is determined by the rider's head shape and the intended use of the helmet.

Common Shapes

Three primary helmet shapes are commonly used: European, Generic, and Asian.

Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Conclusion

Understanding helmet shapes is essential for selecting the right helmet for your head shape and riding style. Always ensure a proper fit for maximum safety.
