Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

FAQS

What is the difference between European, Generic, and Asian headforms?
European headforms have a more elongated, oval shape, while generic and Asian headforms are more rounded. This means that European helmets are often better suited for people with narrower heads, while generic and Asian helmets are better suited for people with wider heads.
