A close-up photograph of a dome structure, likely part of a traditional building. The dome's surface is covered in a dense, woven or beaded texture. Several arched openings are visible, framed by the same textured material. The lighting is soft, highlighting the intricate details of the construction.

Ergonomic interior padding for comfort and durability

Unti-B

A top-down view of the interior of a black bicycle helmet. The helmet features a series of vertical, grey, textured padding strips that run from the forehead down to the back of the head. Black straps are visible on the sides and at the back, securing the helmet. The interior shell is black and has some yellow-green reflective accents on the sides.

Helmet Shape 101

European Headform

A long Oval shaped helmet is designed for a rider's head with a dimension which is considerably longer front-to-back than its side-to-side measurement.

Intermediate Oval

An intermediate Oval shaped helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian head form

A Round Oval shaped helmet is designed for a rider's head with a dimension which has an equally long front-to-back measurement as side-to-side measurement.
