## Manufacturing Processes

- Casting
- Machining
- Forming
- Joining
- Powder Metallurgy
- Additive Manufacturing
- Composites

## MANUFACTURING

- Manufacturing Processes
- Manufacturing Systems
- Manufacturing Automation
- Manufacturing Control
- CNC Manufacturing
- Robotics
- Quality Control/Management
- Supply Chain Management

## Manufacturing Systems

Manufacturing systems are designed to produce goods and services efficiently and effectively. They often involve the integration of various manufacturing processes and technologies. OEM (Original Equipment Manufacturer) systems are specifically designed to meet the requirements of the end user.

- Manufacturing Systems
- R&D (Research and Development) in Manufacturing
- Manufacturing Automation
- Manufacturing Control
- Manufacturing Quality Management
- Manufacturing Supply Chain Management
- Manufacturing Logistics

## Manufacturing Automation

- Manufacturing Automation
- Manufacturing Robotics
- Manufacturing Control
- Manufacturing Quality Management
- Manufacturing Supply Chain Management

## Manufacturing Control

- Manufacturing Control
- Manufacturing Automation
- Manufacturing Robotics
- Manufacturing Quality Management
- Manufacturing Supply Chain Management
- Manufacturing Logistics

## Manufacturing Logistics

Manufacturing logistics involves the efficient movement of materials and goods from suppliers to manufacturers and then to customers. It includes the management of inventory, transportation, and distribution. OEM (Original Equipment Manufacturer) systems often have complex logistics requirements.

### QUALITY

With strict quality management system and first-class products

### OEM&ODM

We can provide OEM and ODM service for customers

### R&D TEAM

With professional and strong technical development team

### PRICE

We have our own production line, to reduce the price to a minimum

### PATENT

We constantly introduce patented technology products

### SERVICE

Perfect after-sales service, so customer satisfaction
