Helmet Shape 101

Introduction

Understanding helmet shapes and their fit is crucial for safety and comfort.

Key Concepts

A helmet's shape is determined by the rider's head shape and the helmet's design.

Head Shapes

Head shapes are categorized into three main types: European, Generic, and Asian.

Helmet Shape 101

Headform	Description
European Headform	An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.
Generic headform	A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.
Asian headform	A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Conclusion

Choosing the right helmet shape for your head is essential for a safe and comfortable riding experience. Understanding the differences between European, Generic, and Asian headforms can help you make an informed decision.
