Helmet Shape 101

European Headform

A long Oval shaped helmet is designed for a rider's head with a dimension which is considerably longer front-to-back than its side-to-side measurement.

Intermediate Oval

An intermediate Oval shaped helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian head form

A Round Oval shaped helmet is designed for a rider's head with a dimension which has an equally long front-to-back measurement as side-to-side measurement.

Introduction

1. OEM Manufacturing

OEM manufacturing is a process where a manufacturer produces goods or services on behalf of another company. The OEM is responsible for the design, development, and production of the product. The OEM is also responsible for the quality control and testing of the product. The OEM is typically a large, established company with a long history of manufacturing. The OEM is often a key player in the industry and is responsible for the majority of the production volume. The OEM is typically a large, established company with a long history of manufacturing. The OEM is often a key player in the industry and is responsible for the majority of the production volume.

2. ODM Manufacturing

ODM manufacturing is a process where a manufacturer produces goods or services on behalf of another company. The ODM is responsible for the design, development, and production of the product. The ODM is also responsible for the quality control and testing of the product. The ODM is typically a large, established company with a long history of manufacturing. The ODM is often a key player in the industry and is responsible for the majority of the production volume.

3. OEM/ODM Manufacturing

OEM/ODM manufacturing is a process where a manufacturer produces goods or services on behalf of another company. The OEM/ODM is responsible for the design, development, and production of the product. The OEM/ODM is also responsible for the quality control and testing of the product. The OEM/ODM is typically a large, established company with a long history of manufacturing. The OEM/ODM is often a key player in the industry and is responsible for the majority of the production volume.

4. Custom Manufacturing

Custom manufacturing is a process where a manufacturer produces goods or services on behalf of another company. The custom manufacturer is responsible for the design, development, and production of the product. The custom manufacturer is also responsible for the quality control and testing of the product. The custom manufacturer is typically a large, established company with a long history of manufacturing. The custom manufacturer is often a key player in the industry and is responsible for the majority of the production volume.

5. 下列叙述何者正确？

（A）360度角为平角。

（B）平角为180度。

（C）周角为360度。

（D）平角为360度。

6. 下列叙述何者正确？

（A）VIP会员卡为实名制。

7. 下列叙述何者正确？

（A）DHL、UPS、TNT、EMS均为国际快递公司。

8. 下列叙述何者正确？

（A）DHL、UPS、TNT、EMS均为国际快递公司。DHL为德国快递公司，UPS为美国快递公司，TNT为荷兰快递公司，EMS为日本快递公司。

（B）DHL为德国快递公司。

9. 下列叙述何者正确？

（A）T / T为电汇。
