The Dial of Adjustment can be interchangeable with LED light

Adjustment Mechanisms:

Adjustment:

Adjustment mechanisms include various types of dials and levers for fine-tuning the fit.

Adjustment:

Adjustment mechanisms are designed to provide a secure and comfortable fit for different head shapes.

Adjustment:

Adjustment mechanisms can be significantly different, offering various options for customization.

Helmet Shape 101

European Headform
An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform
A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform
A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Headform Types:

Headform types are categorized based on their shape and fit, including European, Generic, and Asian headforms.
