Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is condierably fit for Asians.

Comparison

Comparison of helmet shapes and their fit characteristics. The diagram shows three helmet shapes: European (Oval), Generic (Intermediate), and Asian (Round). The text describes the fit characteristics for each shape based on head dimensions. The European shape is designed for a head with a dimension that is considerably fit for Europeans. The Generic shape is designed for a head with a dimension that is slightly longer front-to-back than its side-to-side measurement. The Asian shape is designed for a head with a dimension that is condierably fit for Asians.
