# Helmet Shape 101

**European Headform**  
An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

**Generic headform**  
A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

**Asian headform**  
A Round shaped helmet is designed for a rider's head with a dimension which is condierably fit for Asians.

Figure 1

Figure 1 illustrates the three main types of helmet shapes: European, Generic, and Asian. The European headform is oval-shaped, the Generic headform is round, and the Asian headform is round. The European headform is designed for a rider's head with a dimension which is considerably fit for Europeans. The Generic headform is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement. The Asian headform is designed for a rider's head with a dimension which is condierably fit for Asians.
