# Inner Padding Fabric Options

EVA pads

Mesh pads

Nylon pads

Velvet pads

Cool max pads

Low quality pads

1. EVA pads are made of Ethylene Vinyl Acetate (EVA) foam. They are lightweight and provide good cushioning, but they can become hard and lose their shape over time.

2. Mesh pads are made of a mesh fabric. They provide good ventilation and are lightweight, but they may not provide as much cushioning as other options.

3. Nylon pads are made of a nylon fabric. They provide good ventilation and are lightweight, but they may not provide as much cushioning as other options.

4. Velvet pads are made of a velvet fabric. They provide good cushioning and are lightweight, but they may not provide as much ventilation as other options.

5. Cool max pads are made of a Coolmax fabric. They provide good ventilation and are lightweight, but they may not provide as much cushioning as other options.

6. Low quality pads are made of a low quality fabric. They provide good cushioning and are lightweight, but they may not provide as much ventilation as other options.
