Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Figure 1:

Figure 1 shows the three main types of helmet shapes (Oval, Round, and Intermediate) and their corresponding headform dimensions. The Oval shape is designed for a rider's head with a dimension which is considerably fit for Europeans. The Round shape is designed for a rider's head with a dimension which is considerably fit for Asians. The Intermediate shape is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.
