Helmet Shape 101

The image displays three wireframe head models, each representing a different helmet shape. The first model on the left is labeled 'European Headform' and shows an oval-shaped helmet. The middle model is labeled 'Generic headform' and shows a more rounded helmet. The third model on the right is labeled 'Asian headform' and shows a round-shaped helmet. Each helmet shape is indicated by a dashed red line overlaid on the blue wireframe head.

European Headform	Generic headform	Asian headform
An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.	A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.	A Round shaped helmet is designed for a rider's head with a dimension which is condierably fit for Asians.
