FAQs

Q: What are the different helmet shapes? A: There are three main helmet shapes: European (oval), Generic (slightly longer front-to-back), and Asian (round). Q: How do I know which helmet shape is best for me? A: You can determine your head shape by measuring your head from the forehead to the back of the head and from the side to the side. Q: Can I wear a helmet that isn't my shape? A: It's best to wear a helmet that fits your head shape properly. Wearing a helmet that doesn't fit can be uncomfortable and may not provide the same level of protection.
