Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

Helmet Size :

Helmet size is determined by the head circumference, which is measured around the head just above the eyebrows, ears and the occipital protuberance (the back of the head). The measurement should be taken in centimeters (cm) and rounded up to the nearest whole number. For example, if the measurement is 58.5 cm, the helmet size should be 59 cm. The helmet size should be 2-3 cm larger than the head circumference to allow for proper fit and ventilation. The helmet size should be 2-3 cm larger than the head circumference to allow for proper fit and ventilation. The helmet size should be 2-3 cm larger than the head circumference to allow for proper fit and ventilation.

QUALITY

With strict quality management system and first-class products

OEM&ODM

We can provide OEM and ODM service for customers
