# Professional rock climbing helmet

AU-M02

### **DOUBLE IN-MOLD CONSTRUCTION**

It places impact-resistant EPS foam on the inside of the helmet which is then surrounded by a durable polycarbonate outer shell for strength and puncture resistance.

### **HEAD LOCK ADJUSTMENT**

Quick release heading system, made by Nylon material.

### **SOFT WASHABLE PADS**

Ergonomic interior padding for comfort and durability

## PLASTIC CLIPS FOR LED HEADLAMP

ABS material, very easy to hold the lamp.

## Headform:

Headform is a model of a human head used for testing helmets. It is used to determine the fit and safety of helmets. There are three types of headforms: European, Generic, and Asian. Each type is designed to fit a specific population. The European headform is oval-shaped, the Generic headform is slightly elongated, and the Asian headform is round. It is important to choose the right headform for your helmet to ensure a proper fit and maximum protection.
