Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is condierably fit for Asians.

FAQ

Q: What is the difference between helmet shapes?
A: The difference lies in the head shape they are designed to fit. European helmets are oval-shaped, Generic helmets are designed for a head shape that is slightly longer front-to-back than side-to-side, and Asian helmets are round-shaped. It's important to choose a helmet that fits your head shape properly for safety and comfort.

Our In-house Testing Lab

Our testing lab is equipped with various testing equipment and is certified to ISO9001, CE, and other international standards.
