# Helmet Shape 101

## European Headform

A long Oval shaped helmet is designed for a rider's head with a dimension which is considerably longer front-to-back than its side-to-side measurement.

## Intermediate Oval

An intermediate Oval shaped helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

## Asian head form

A Round Oval shaped helmet is designed for a rider's head with a dimension which has an equally long front-to-back measurement as side-to-side measurement.

## SHIPPING

The shipping section features a collage of images and logos. At the top left, a large, semi-transparent image shows a person's head in profile. Below this, there are several smaller images: a worker in a factory setting, a worker handling a red helmet, a worker loading boxes onto a pallet, and a worker loading boxes onto a truck. The bottom right corner contains logos for FedEx Express, DHL Express, EMS, UPS, and TNT.
