

AURORA Chair 3D Model :

The Aurora chair is a modern, minimalist design. It features a sleek, curved backrest and a wide, flat seat. The chair is made of high-quality materials, including 24 R & A, ABS, and D. The design is inspired by the Aurora Borealis, the natural light phenomenon in the Arctic and Antarctic regions.

The chair is designed for comfort and style. It is suitable for use in a variety of settings, including homes, offices, and public spaces. The chair is available in a range of colors and finishes, including black, white, and wood-grain. The chair is also available in a variety of sizes, including a standard size and a larger size for adults.

In 2015, the Aurora Sports chair was introduced. It is a more robust version of the original chair, designed for use in sports and outdoor settings. The chair is made of a durable material and is available in a range of colors and finishes. The chair is also available in a variety of sizes, including a standard size and a larger size for adults.

Key features of the Aurora chair include:

- 3D Model
- High-quality materials
- Available in a range of colors and finishes
