How to choose a helmet shape:

1. Headform :

There are three main types of headform: oval, generic, and round.

2. headform :

The headform is the shape of your head. It is determined by the shape of your skull.

3. headform :

Some people have a headform that is considerably different from the standard headform.

Helmet Shape 101

<p>European Headform</p> <p>An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.</p>	<p>Generic headform</p> <p>A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.</p>	<p>Asian headform</p> <p>A Round shaped helmet is designed for a rider's head with a dimension which is condierably fit for Asians.</p>
---	---	--

How to choose a helmet:

When choosing a helmet, it is important to consider the shape of your head, the type of riding you will be doing, and the level of protection you need. A helmet that fits well and provides the necessary protection is essential for your safety. Always use proper fitting techniques and consult with a professional if you are unsure.
