The Dial of Adjustment can be interchangeable with LED light

How to adjust your **kask** helmet:

Step 1:

Adjust the dial to fit your head. The dial should be centered on your forehead.

Step 2:

Adjust the chin strap. The strap should be snug against your chin.

Step 3:

Adjust the cheek pads. The pads should be comfortable against your cheeks.

Helmet Shape 101

European Headform

An Oval shaped helmet is designed for a rider's head with a dimension which is considerably fit for Europeans.

Generic headform

A generic headform helmet is designed for a rider's head with a dimension which is slightly longer front-to-back than its side-to-side measurement.

Asian headform

A Round shaped helmet is designed for a rider's head with a dimension which is considerably fit for Asians.

How to choose your helmet:

Choose a helmet that fits your head shape. The helmet should be comfortable and secure. **amenable** helmet is a good choice.
