Packaging Information

Items per case: 9 pcs/carton

Packing size: Carton size: 67 ** 31.5 CM 52.5

Gross Weight: kg 4.80

Packing type: 1pc/PP box with color bag, 9 DC in brown cardboard

Knowledge of the circumference of the head Identification of the elegant helmets:

European head Simulator:

Oval helmet is designed for jockeys head with a dimension that is very suitable For Europeans.

General of the head:

Generic block helmet is designed for the rider's head with a dimension that is slightly longer than its front side rear measurement.

Asian Head Simulator:

And round in the shape of the helmet to head of riders with dimension, which is considerably suitable for Asians.

Our testing Lab:

Even if we consider all the elements necessary to increase the body structure in the design, but we still use professional equipment to control all aspects of our product! Our advanced internal testing laboratory was built according to EN1078 EN397 EN12492, EN1384, CPSC VG1, specifications, etcetera. Before serial production or send a third party organization test, check yourself the quality and make sure you are qualified!

Our In-house Testing Lab

Certification:

Below is our certificate: ISO9001, we have documents of CE patent, Royal, and we have our own lab, which surely everyone our product can meet the requirements for testing.

The production process is the hull as below:

Silk screen → PC Tools Blister → PC Blister Production → Cut dug a hole → Raw materials for the different densities of EPS → EPS in Mold Tools → The hull in the form of a workshop → In the formation of machines → In Mold Tools → The production process in the mold → Semi-Finished cast iron Hull → IQC Inspection → Hull, polished → The internal filling of the production → Plastic Injection Workshop → The assembly line → The interior marks → Packing → United Kingdom → Counters installed.

Production Procedure

Silk screen

Why do they choose us?

-because we have many advantages

Quality: With strict quality control and excellent products

OEM & ODM: We can provide OEM and ODM service for customers

R & D Team: With a professional and strong technical development team

Price: We have our own production line, reduce the price to a minimum

Patent: We are constantly introducing patented technology products

Service: Perfect after-sales service, therefore satisfaction

QUALITY

With strict quality management system and first-class products

OEM&ODM

We can provide OEM and ODM service for customers

R&D TEAM

With professional and strong technical development team

PRICE

We have our own production line, to reduce the price to a minimum

PATENT

We constantly introduce patented technology products

SERVICE

Perfect after-sales service, so customer satisfaction

We have more than 24 years experience project process we could only your ideas with truthful information, what you need, let us know what you want and start our hand mold for reference, once we get the final confirmation of the design, we can do a 3d scanning and processing after training.

Turn your idea into a custom concrete product!

Express Delivery:

International Express, air freight and sea transport are all well after agreeing here! You can select all the possible transports you want and we will do our best to help! We have already built long term relationships with various shipping companies and freight forwarders, all of our efforts focus on offering the best shipping experience! Choose, it will be easy to keep a helmet safe all the time!
