

**CE EN397/CE 12492 certified Climbing Helmet,**  
**Comfortable PPE safest helmet for construction AU-**  
**M12**

## **SAFETY HARD HAT**

High Impact  
ABS

Size Adjustment  
55-62 cm

Ventilation  
Breathable

### **Climbing Helmet with Visor**

Visor has newly added the double-sided anti-fog function, which complies with the latest EN ISO 16321-1-2022 Eye and face protection for occupational use

Vents on sides and back are designed to allow airflow through the hard hat.

Proprietary LOGO design placement or reflective sticker placement so that others can notice your brand or the wearer's position

The side of the helmet is designed with the addition of a vent switch design. Make the helmet waterproof effectively in rainy weather

## OUR CAPABILITIES

- Well-experienced independent R&D team
- One-Stop Manufacturing Capabilities:
  - Tooling / Molding Workshop
  - 3D Printing Workshop
  - Composite Formation Department
  - Silk Screen Printing Line
  - Water Deco/UV Dart Label Workshop
  - Vacuum Forming and Trimming Line
  - In-mold Technology/ Plastic Injection Line
  - Painting Workshop
  - Assembly Line
  - QC team
  - Warehouse
- In-House Testing Lab Facilities
