

**China Manufacturer EN12492 Certificate Rock Climbing
Helmet With Silver Plated Visor AU-M02**

PRODUCT VIEWS

PRODUCT FEATURES

- Inner Polystyrene Shell**
- Improved safety is provided by the increased shell's thickness in the summit area and by the extended shell's contact surface with the head in the front and rear parts of the inner shell.
 - Superior fit on the head and better comfort due to the greater shell's contact surface with the head.
 - Increased natural air flow due to the vents in the inner shell's summit area that provide efficient ventilation and air recycling.
 - Advanced shape of the inner shell provides improved durability and better adaptation to all head sizes.
- Inner Padding**
- New Polygiene (register mark) treated 2DRY (register mark) fabric offers greater freshness and active protection from unpleasant odor even after frequent wearing. The high-tech wool fabric provides maximum comfort and rapid absorption of moisture keeping the skin fresh and dry. Polygiene (register mark) treated inner padding permanently inhibits the growth of odor-causing bacteria, provides greater freshness, odor elimination, integrity and preservation of material, and reduction of washing frequency. The padding is supplied with two labels/tags that guarantee the originality of the fabric and its Polygiene (register mark) treatment.
 - Double welded edge padding for added strength and comfort.
- Strap System and Chin Pad**
- Chin pad is made from the leatherette-artificial leather. It's anti-allergic, washable, extremely comfortable and eliminates irritation of the skin.
 - Strap system is crossed-back for greater stability of the helmet on the head.
- Size Adjustment System**
- New and proprietary Up-N-Down size adjustment system provides the most precise and comfortable fit. Its mechanism consists of a central ratchet wheel and two lateral finger-push winglets that allow rapid and exact adjustment of the size. The advanced size adjustment system offers increased stability of the helmet due to two additional adjustments of height and inclination, allowing correct positioning and ultimate fit of the helmet.
 - Supplied with the non-slip rubberized inner pads for better comfort.

 - Compatible with the bayonet-type and cap-mount Peltor, MSA and Hellberg ear muffs.

Detail description of China rock climbing helmet manufacturer

Model No.	AU-M02 Rock climbing Helmet
External material	ABS/PP shell
Inner material	high density EPS foam + soft inner pads
headband	PE Polythene
Lamp Carring System	External Nylon 6.6 Lamp Clips
Earmuff	30-35db NRR hearing protector
Face mask	PC plastic visor/ PC plastic goggle/ iron mesh
Color	red, yellow, blue,green,orange,black,white,pink
Size/Head circumference	51-62cm
Weight	407 g (ear muffs and eyes shield are not included)
Vents	10 air ventilation with aluminum/ nylon mesh
Technology	Injection
Certification	CE EN 12492 / EN397
Sample time	3-7 working day
MOQ	200 PCS
Packing detail	1.PP bag, PE bag, Blister card, color box and custom-design is welcomed. 2. Carton packing outside

China climbing helmet supplier accessories available:

- 1) Safety climbing helmet with LED light: headlamp 3AAA led light.
- 2) Safety climbing helmet with ear protection and mesh faceshield:

The durable shell of earmuff is made out of high impact resistant ABS material.The extra soft ear cushions provide you maximum seal, comfort and complete hearing protection.It is suitable for people who work in the high noisy workplace.

- 3) Safety climbing helmet with plastic visor:

- New visor mounting system is made of polycarbonate and allows two positions : UP-on top of the helmet and Down-working position.
- Polycarbonate construction eliminates oxidation and loss of the traditional mounting screws.
- Expanded face-surface protection
- Equipped with a protective film to be removed before use.
- Certified CE EN166, anti-fog, anti-scratched.

Our Test lab:

In order to manufacture quality helmets, we learn not only from the design theory, but also make progress from testing result! That's why our factory equipped with professional testing lab to ensure every design is practical & amenable! Our testing standard is more strict than the related certificate requirements, that's why we can promise the model that we provide can definitely pass the corresponding test by third-party!

Our In-house Testing Lab

Certification:

Below is our certificate :we have ISO9001 ,letters patent ,CE documents ,and we have our own lab to make sure every our product can meet the testing requirements

CERTIFICATE

Our factory's profile:

Aurora Sports is a helmet manufacturer, with more than 15 years experience in producing all types of helmets. In-house design and R&D teams with established experience, allows Aurora Sports to quickly answer to demanding requirements and create from scratch whole programs and collections with rigorous quality standards.

CUSTOMIZE FOR BRAND

Logo style: Dome, Metal, UV-Dart sticker, Water decal.

The helmet production procedure is as below:

silk screen → PC blister tooling → PC blister manufacture → Trimming dug hole → EPS raw material by different density → EPS in-mold tooling → helmet in-mold workshop → in-mold machines → in-mold tooling → in-mold producing process → semi-finished in-mold helmet → IQC inspection → helmet grinding → inner padding production → plastic injection workshop → assembly line → inside labeling → packing → warehouse → installed counters.
