## Area of application safety helmets

Power generation

Iron tower

BTS station

Coal mining

Work at height

Petrochemical refining

Offshore oil and gas

Plumber

Cable car maintenance

Mobile plant maintenance

Aircraft Maintenance

Pulp&paper

Civil infrastructure

Sea rescue

Roof Cleaning

Hiking

## Product Detail

Item	Feature	Optional
1.Product Name	safety helmet	Telecom Workers safety helmet,Absenteeism safety helmet, Cave explorers safety helmet,oil rigs safety helmet,power generation safety helmet,China helmet manufacturer
2.Model Number	AU-M02	
3.Material	ABS/PP shell+PU padding+ Webbing suspension system	adjustment,nylon chin strap and ITW buckle,silver mesh ventilation system,two slots for mounting hearing protection.EPS+PC in mold helmet,adjustable chin strap with quick-release buckle;rear lock adjustment;cool comfortable pads
4.Certificate	EN 397	
5.Color	white black red greend orange blue yellow grey pink	
6.Size	M(51-62CM)	standard adult size or children size
7.Logo	sticker Printing, watermark, heat transfer, etc.	
8.MOQ	500 pcs	Each color no less than 300pcs
9.Payment Terms	Paypal T/T, Western Union, L/C	
10.Carton Size	73*58*35CM	
11.Packing	12pcs/ctn	10pcs master ctn
12.Price Term	FOB	
13.Shipping Metho	By sea or by air	express

14. Sample time	4-7 days	after we receive your sample details
15. Production Lead Time	20-30 days approx	approx after your confirmation to pre-production samples, and also according to your order quantity

## Components of a Helmet

### **Liner:**

Most helmet liners are made of expanded polystyrene foam. On impact, the liner dissipates the force of the impact to protect your head. Make sure the liner fits your head comfortably and that it's not damaged or dented.

### **Shell:**

Most cycling helmets are covered with a plastic shell to hold the helmet together in a crash, provide puncture-resistance and allow the helmet to slide on impact (to protect your head and neck). Make sure the shell is intact and in good shape.

### **Ventilation:**

Helmet vents enhance wind-flow over your head, keeping you cooler and more comfortable as you ride. In general, the more vents you have, the cooler you'll be.

### **Straps:**

Find a helmet strap system that's comfortable and easy to get in and out of. Also make sure that it matches your riding style — beefy for rough terrain and mountain trails, lighter and cooler for road racing. Try a couple of different systems before you decide on one.

### **Hair port:**

This helmets come with a strap design that accommodates ponytails.
