

#### Production Features

Uniquely designed to offer optimal sunprotection

The wide peak shields the skin from weather-related damage while maintaining excellent visibility. The engineered ABS injection-molded shell guarantees durability and resistance to deformation.

High density EPS foam

The helmet liner is made from EPS (expanded polystyrene foam) in a new ground-breaking shape to absorb the energy from impacts by dispersing it. As a result, the liner crushes on impact and becomes far denser.

Comfortable & Durable Inner Padding  
Thickness: 6mm, 8mm, 12mm

#### ONE PIECE ANTIBACTERIAL INNER PADDING

Removable lining, machine washable padding, Comfortable and breathable velvet foam padding integrated with air mesh layer, ensures a better moisture wicking and sweat releasing effect. .

## Up&Down adjust system

our patented up-and-down technology ensures a perfect fit for every user. The modular design allows for easy part replacement, extending the product's lifespan and making maintenance simple. Components can also be sold separately for added convenience and customization

Anallergic eco-leather chinstrap

The anallergic eco-leather chinstrap provides exceptional comfort and helps prevent skin irritation, ensuring a pleasant wearing experience. It's also easy to clean, making maintenance effortless and hygiene simple to uphold
