The Customized accessories:

So far, we have been manufacturing & exporting different kinds of helmets for more than 24 years. You can purchase latest design quality helmets here as well as personalize your own designs since we can provide a strong R&D support. We provide different options for custom service that you can select the different helmet color, different strap color, LOGO custom service, inner pad design, divider color, different strap buckle color, and we can provide different head adjusters even different colors for visors.

ITW helmet buckle is light, easy to fasten and normally reliable. It has some drawbacks, however. It requires the strap to be adjusted correctly at all times, and retain the adjustment, since it always fastens at the same spot.

Helmet Buckle Options

ITW standard helmet buckle

Traditional helmet buckle

Patent self-developed magnetic buckle

Fidlock magnetic buckle

We can also customize various colors buckle.

The Up-N-Down helmet adjustment system gives the most precise and comfortable fitting of any helmet due to its unique double pivot design. This allows the back of the head to be cradled by the soft rubber pad, which are then easily tightened to the correct tension by a central ratchet wheel. Lightweight and easy to use. Advanced fit systems provide the perfect adjustment, in every direction, to match every individual head shape.

Breathability and comfort are extremely important, that's why the Manta features Airlite straps which are 15% lighter than a standard helmet strap. Tetoron straps are lighter, stronger and more breathable than a normal helmet strap. They also do not stick to the face as easily when temperatures begin to increase. Fast Adapting System webbing can be easily and continuously tailored to your exact head shape. The helmet stays securely on the head in all situations and the webbing straps are always in the best position.

Helmet Strap Options

Nylon strap

PP strap

Tetoron strap

Polyester strap

PU strap

Available colored/patterned strap

Various helmet strap embedded parts are available here! According to helmet design, our R&D team can advise anchors that suit your helmet body structure best! In special circumstance, we can customize this part for you!

2. printing

3. PC blister tooling

4. In-Mold producing process

6. raw EPS material

8. Packaging

Our Technology

- In-mold advanced technology
- High density EPS forming
- Patented headlock design
- High definition screen printing
- 3D printer & scanner usage
- Carbon fiber production and application
- Aluminum & steel mould manufacture
- International standard testing laboratory

Our Business Scope

- Sell quality design & fabrication helmets worldwide
- R&D advanced helmets for brand owner
- Manufacture OEM helmets with high standard
- Provide rapid prototype service according to drawings
- Open aluminum blister mould & steel injection mould

Customized Options

- PC, PVC, ABS, PP, etc. various shell material choices
- Different quality & density EPS injection
- Alternative colorful linings & straps
- All kinds of headlock designs
- Logo & graphic stickers

The head circumference knowledge of safest bicycle helmet:
