-Our test lab:

Even if we consider all the necessary elements to increase the body structure in design, but still we use professional equipment to control all aspects of our product! Our advanced internal test laboratory was built according to EN1078, EN397, EN12492, EN1384, VG1 CPSC, test specifications, etc. Before our serial production or send it to a third-party organization test, check the quality by yourself and make sure you are qualified!

Our In-house Testing Lab

-Certification:

Below is our certificate: ISO9001, we have Royal patent, CE documents, and we have our own laboratory, that surely each our product can meet the requirements for testing

-The production process is the helmet as below:

Silk screen → PC Tools blister → Production of PC blister → Trimming dug a hole → Raw materials for the different density of the EPS → EPS in mold tools → the helmet in the form of workshop → in forming machines → in mold tools → the production process in the mold → semi-finished cast helmet → IQC inspection → helmet, grinding → The internal padding of the production → plastic injection workshop → the Assembly line → the Interior markings → packaging → Uk → installed counters.

Production Procedure

-Why did you choose us?

-because we have many advantages

Quality: with a strict quality control and excellent products

OEM and ODM: we can provide OEM and ODM service for customers

R & D team: with a team of professional and strong technical development

Price: we have our own production. tion of the line, reduce the price to a minimum

Patent: we are constantly introducing products of patented technology

Service: perfect after-sales service, so the satisfaction

QUALITY

With strict quality management system and first-class products

OEM&ODM

We can provide OEM and ODM service for customers
