Our strength: 1. Full sets of Testing Certificate

2. Fast making the sample

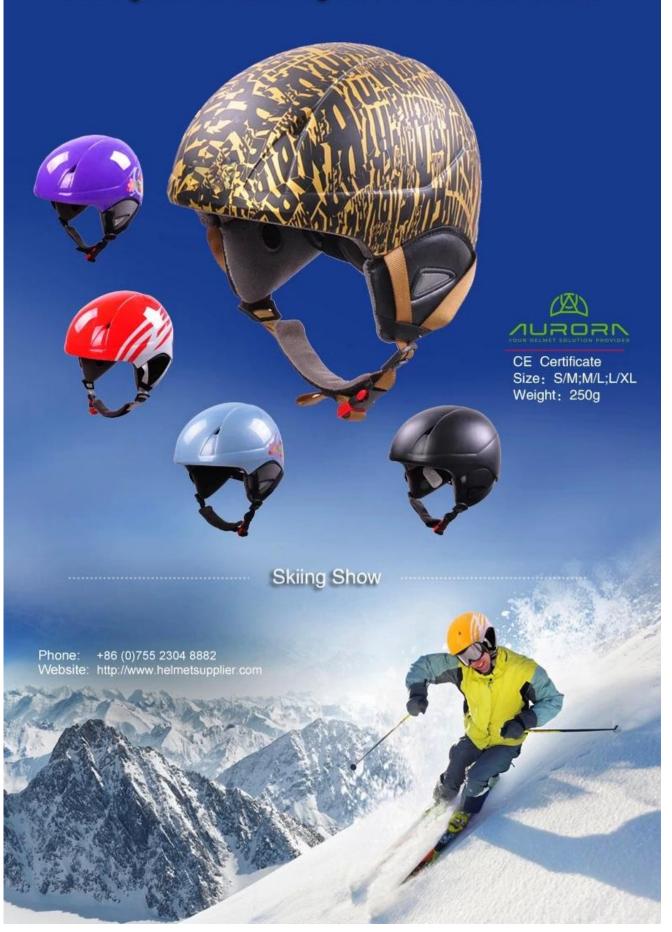

3. Good price with first class quality4. Durable and long time service life

5. High effect for protection

6. Delivery on time.

Pictures:

The ultralight in-mold skiing helmet S02 is in 250g with CE approved ,with good ventilation channels can flow the air to keep normal temperature and ear muff to avoid the frostbite your ear , available size S/M;M/L;L/XL, it Can also be OEM order to stick your LOGO onto the helmet

Components of a Helmet

Liner:

Most helmet liners are made of expanded polystyrene foam. On impact, the liner dissipates the force of the impact to protect your head. Make sure the liner fits your head comfortably and that it's not damaged or dented.

Shell:

Most cycling helmets are covered with a plastic shell to hold the helmet together in a crash, provide puncture-resistance and allow the helmet to slide on impact (to protect your head and neck). Make sure the shell is intact and in good shape.

Ventilation:

Helmet vents enhance wind-flow over your head, keeping you cooler and more comfortable as you ride. In general, the more vents you have, the cooler you'll be.

Straps:

Find a helmet strap system that's comfortable and easy to get in and out of. Also make sure that it matches your riding style — beefy for rough terrain and mountain trails, lighter and cooler for road racing. Try a couple of different systems before you decide on one.

Hair port:

This helmets come with a strap design that accommodates ponytails

Welcome all our clients and partners to visit us to see our R&D center and factory facilities. At our show room, we carry a large selection of helmets for a wide range of sports applications, all at very attractive design! If you can't find what you are looking for, tell us, our friendly and courteous staff will be glad to help you with your helmets needs.

Below is our certificate :we have ISO9001 , letters patent ,CE documents , and we have our own lab to make sure every our product can meet the testing requirements

Why choose us?

- 1. We produce material by ourselves and have our own factory, which makes more competitive price and faster delivery.
- 2. We provide OEM service and submit various styles, latest designs every month to our clients
- 3. We work with big customers in Europe 60%, USA/25%, Russia/5%, South Korea/2%, Japan2%.
- 4. We have standard testing report from SGS or TUV for different market, please send us email for the copy of testing reports.
- 5. We have great experience on provide high quality service to retailers

Thank you for you valuable time. Sincerely hope to cooperation with you .
