8. Certification:EN1078 certified for impact protection.

Product Features

1. Thicken PC shell, protection would be sharply increased.
2. High density black EPS material, light weight, Shock resistance, provide reliable protection.
3. With adjustment headlock buckle, PA webbing, washable pads.
4. Lining Pad equipped with hot-pressing technology.
5. [We are a direct helmet manufacturer, with independent R&D capabilities.](#)

Product Details

1. Product Name customized road bike helmet
2. Model Number BM05
3. Material:PC+EPS in mold technique With adjustment rubber knob,nylon chin strap and ITW buckle,
4. Visor:Removable visor
5. Color:any pantone color
6. Size S/M(54-58cm) M/L (58-62CM)
7. Logo:sticker Printing, watermark, heat transfer, etc.
8. MOQ:500 pcs Each color no less than 300pcs
9. Carton Size:73*58*35CM
10. Packing:12pcs/ctn 10pcs master ctn
11. Price Term:FOB
12. Shipping Method:By sea or by air express
13. Payment Terms:Paypal,T/T, Western Union, L/C
14. Sample time:4-7 days
15. Production Lead Time:20-30 days approx

Product Picture Detail

Display From Different Perspectives

Components of a Helmet

Liner:

Most helmet liners are made of expanded polystyrene foam. On impact, the liner dissipates the force of the impact to protect your head. Make sure the liner fits your head comfortably and that it's not damaged or dented.

Shell:

Most cycling helmets are covered with a plastic shell to hold the helmet together in a crash, provide puncture-resistance and allow the helmet to slide on impact (to protect your head and neck). Make sure the shell is intact and in good shape.

Ventilation:

Helmet vents enhance wind-flow over your head, keeping you cooler and more comfortable as you ride. In general, the more vents you have, the cooler you'll be.

Straps:

Find a helmet strap system that's comfortable and easy to get in and out of. Also make sure that it matches your riding style — beefy for rough terrain and mountain trails, lighter and cooler for road racing. Try a couple of different systems before you decide on one.

Hair port:

This helmets come with a strap design that accommodates ponytails.

CERTIFICATE / AUTHENTICATION

AURORA SPORT TIPS

Helmets, generally speaking, should last about 5 years with normal wear and tear. A single impact type of helmet (most bike helmets are single impact) should be replaced after a single very hard hit to the helmet or if the inside material is breaking down or cracking. A multi impact helmet can support multiple hard hits but be aware that its performance will be reduced after each impact

PAYMENT AND SHIPPING

PAYMENT

- We accept T/T ,Western Union or Paypal before production
- If buyers have any problems about payment , please contact us ASAP

SHIPPING

- 3-15 working days since payment receipt (based on actual quantity)
- Tracking No. will be sent to you after delivery . And you will get every important shipping status by email.
