□

Packaging information:

The number of items in the carton: 9 PCs/carton

The dimensions of the packaging: carton size: 67 * 31.5 * 52.5 CM

Gross weight: 4.50 kg

Type of package: 1pc/PP bag with color palette, 9 PCs on Brown CARDBOARD

The circumference of the head knowledge of riders hats:

European capitals:

The oval-shaped helmet is designed for the rider's head with the measure that is highly customized for the Europeans.

The General heads:

Generic headform helmet is designed for the rider's head with the measure, which is slightly longer than its front rear measurement on the side.

Asian capitals:

And round in the shape of the helmet is designed for the rider's head with a dimension which is considerably suitable for Asians.

Our test lab:

Even though we are for all the necessary elements for the increase of the body in design, but still we use professional equipment to control all aspects of our product! Our advanced internal test laboratory was built according to EN1078, EN397, EN12492, EN1384, VG1 CPSC requirements, tests, etc. Before our mass production or send it to a third-party test organization, check the quality by yourself and make sure they are qualified!

Our In-house Testing Lab

Certification:

Below is our certificate: ISO9001, we have letters patent, documents, and we have our own laboratory, that surely each of our product can meet the requirements for testing

Production procedure of the helmet is as below:

Silk screen → PC blister tooling → Production of PC blister → Crop dug a hole → EPS raw material under different density → EPS-mold machining → the helmet in the mold workshop → in the moulding machines → Mold Machining → mold produce process → semi-finished product in the mold helmet → IQC inspection → helmet, grinding → The internal padding of the production → plastic injection workshop → the Assembly line → in describing → packaging → warehouse → installed counters.

Production Procedure

Silk screen

PC blister tooling

PC blister manufacture

Trimming dug hole

Eps raw material by different density

EPS in-mold tooling

Helmet in-mold workshop

In-mold machines

In-mold tooling

In-mold producing process

semi-finished In-mold helmet

IQC inspection

Helmet grinding

Inner padding production

Plastic injection workshop

Assembly line

Inside labeling

Packing

Warehouse

Installed counters

Why choose us?

-There are several advantages:

Quality: with the first-class products and a strict quality management system

OEM and ODM: we can provide OEM and ODM service for customers

R & D team: with a team of professional and strong technical development

Price: we have our own production line, reduce the price to a minimum

Patent: we introduce the products of patented technology

Service: perfect service, so the satisfaction

QUALITY

With strict quality management system and first-class products

OEM&ODM

We can provide OEM and ODM service for customers

R&D TEAM

With professional and strong technical development team

PRICE

We have our own production line, to reduce the price to a minimum

PATENT

We constantly introduce patented technology products

SERVICE

Perfect after-sales service, so customer satisfaction

Express delivery:

International Express, air freight and sea transport are all well organised here! You can select all the possible transport you want and we will try to help you! Already we have built long-term relationships with different carriers and the carrier, all our efforts to provide you with the best shipping experience! Choose us, it will be easy to keep a helmet safe all the time!

PAYMENT

- We accept T/T ,Western Union or Paypal before production
- If buyers have any problems about payment , please contact us ASAP

SHIPPING

- 3-15 working days since payment receipt (based on actual quantity)
- Tracking No. will be sent to you after delivery . And you will get every important shipping status by email.
